Smart Cams

**GAIN VISIBILITY OF THE ROAD
AND DRIVERS BEHAVIOR TO
LOWER OVERALL FLEET COSTS
AND IMPROVE SAFETY**

“We are so glad to have installed the Smart Cam solution! Full ROI is just around the corner and we are already training some of our drivers.”

Keep an eye on the road but from your desk with event-triggered video clips.

assured Techmatics Smart Cams combines the power of a full telematics solution with artificial intelligence-powered video system to assess drivers behavior in real-time, record accidents and provide insight to fleet managers in order to improve safety and lower overall fleet costs.

Event-triggered video clips help you absolve safe drivers and shorten the insurance claim process.

Improve your drivers overall working behavior by coaching them based on video inputs, driving behavior and road analysis.

Forward collision

Smoking

Phone call

Vehicle distance

Driver fatigue

Lane departure

Driver distraction

Advanced analytics for your most critical business metrics.

Instantly review accidents,
near-misses, bad driving behavior and
many other triggers to improve effi-
ciency, shorten insurance claims.

Lower Management Cost

Our assured Techmatics Smart Cams solution provides plenty of insights for fleet managers to save money on different business areas.

Driver Safety

Use event-triggered short clips to coach your drivers.

Insurance Evidence

Provide evidence on insurance claims that helps shorten the process and exonerate innocent drivers.

Improve Efficiency

Raise the safety bar by bringing all your drivers to the same safety level, by using videos, road information and behavior, in order to considerably reduce overall business expenses.

Open APIs

Industry standard protocols for full telematics and custom integrations with third party transportation management systems.

Road Visibility

Capture valuable video clips that fleet managers and drivers need to safeguard your business.
